

Baderukwe five night 4x4 tour

This tour is brought to you exclusively by Bonsai Technologies

The 4x4 tour allows you access to remote areas in the Greater Kruger National Park that are not frequented by many visitors (no fence between the Kruger National Park and Letaba Ranch). The surrounding wilderness, the remoteness and the seclusion of travelling through rarely seen areas are the main thrills of this tour. You can brace yourself for numerous animal spoor, wildlife, vegetation, exciting birdlife and an abundance of breath taking scenery.

The tour is a guided five night 4x4 adventure trail which travels along management roads in the Letaba Ranch as well as the area to the north-east of the Phalaborwa Gate up to the Letaba River. A knowledgeable and professional trail guide will lead the trail itself and also provide the necessary interpretation en-route. The guide will also ensure your safety on the trail. An off-road guide will assist with 4x4 aspects when necessary.

You will camp in unfenced areas in the Letaba Ranch and Kruger National Park. This adds to the experience of the trail. You will drive in your own 4x4 vehicle and you must make provision for your own provisions, including tents and camping gear, sufficient supply of water, firewood and food.

This is an ideal opportunity to combine 4x4 travelling, outdoor camping and game viewing. The convoy stops regularly for environmental, historical and cultural interpretation or to share special experiences and photographic opportunities.

The tour is aimed at true bush lovers and ones who enjoy the wilderness and is not designed as an obstacle course or endurance test.
