

My Ride & I

Rivers, mountains, deserts, valleys, trails... You name it, our readers have conquered them all! Herewith a selection of reader snaps, featuring their trusty sidekicks.

Send yours to us on: info@4x4afrika.com (Subject: My Ride & I)

Martin de Jager
2013 Suzuki Jimny 1.3

"I bought the Jimny about a year ago as my new toy. It had about 170 000km on the clock and came to me pretty standard with only rock sliders, a roof rack and a snorkel fitted to it. Subsequently, I have had a 3-inch EFS suspension lift and a set of 235/75 R15 tyres fitted. There are several mods still in the pipeline in my quest to turn Ratel into a mini overlander."

Ian Morrison
2020 Suzuki Jimny GLX Manual

"I have owned Bazooki for three months now and have never looked back – we have done quite a few 4x4 trails and outings with the 4x4 Action Group, which is always loads of fun. It boasts some modifications, including Wrangler 215/80 R15 tyres, Wildog rock sliders, a Tough Dog suspension lift and a graphic wrap by Apple Signs which always draws attention to the vehicle. My love for the Suzuki brand stems from a few years back when our family kept an old Gen3 Jimny at the coast as a holiday car. This is also how its nickname came about: my boys were small and could not pronounce Suzuki, calling it the Bazooki!"

WINNER

André van der Sandt
2008 Jeep Wrangler Unlimited Rubicon

"My Jeep, called Witbroodjie, has over the past 12 years evolved to one of the most modified and capable vehicles I have ever owned. I have completed most of the extreme 4x4 trails in the country, and it has never disappointed me. It includes a host of engine modifications and some practical mods, such as a homemade drawer system and built-in water and fuel tanks. I simply love the brand and own quite a few of these machines – currently, I am rebuilding a Jeep FC150, the only one in South Africa."

Kelly Jones
2004 3.2 DI-D Mitsubishi Pajero

"I love my ride because she is super capable but still a little girly. Everyone calls her the Pink Lady, and although she is stock-standard, she gets me wherever I want to go and has never let me down."

Johan Roets
2010 Isuzu D-Teq 4x4 double cab

"I have had a couple of competent off-road vehicles that stood out because of all the extras that were fitted to them, but this little Isuzu is a real underdog. I have had endless fun without being obvious and surprised many 4x4 buddies who drive some more well-known 4x4 brands. I respect all my 4x4 friends and their vehicles, but I think it's more exciting to have a smaller vehicle with the heart of a 6x6, like my Suzi."

Up for grabs

Send us your photos featuring your pride and joy and stand a chance to win a hamper filled with braai and cooking spices valued at R1 000 from Scalli's braai spice. Scalli's – with a flavour for every taste – is distributed by Exclusive Products and is also available on www.takealot.com
